AURELIO MARTINEZ

Meet Aurelio Martinez, a tattoo artist who approaches each tattoo session as a collaborative journey. Listening to clients every idea to put together a design special for them. Whether it's a sweet monochrome tattoo, dynamic anime character, or surreal creation. Aurelio attacks every tattoo with creativity and precision with a keen eye for detail. More than anything, Aurelio understands that a tattoo isn't just ink on the skin; it's a lifelong statement of identity and expression. But can never pass up a silly tattoo.
